

## **Pennsylvania Place COVID-19 Visitation Guidelines**

We are thrilled to announce that we are now allowed to have friends and family visit in person within the tenant's apartment! This is a huge step in getting back to "normal".

**If you are a visitor that has received your COVID vaccinations:** Please stop at the front desk where we will take your temperature. You will be asked to continue wearing your face mask until you are inside the tenant's apartment. If all who are within the apartment (including tenant's) have been fully vaccinated, everyone may remove their masks and not remain socially distanced.

**Non-vaccinated visitors:** You will follow the above-protocol, but may not remove your mask once in the tenant's apartment; and we ask you to remain physically distanced. (6 feet)

**\*\*\* Please bring proof of your vaccination by either providing your card and/or a photo of it on your phone.**
